Join us for Kindergarten LEAP! Our LEAP program will be housed in each elementary school in the Pine-Richland school district. This program will provide quality, convenient, and affordable child care with enriching daily activities designed to support your child's curiosity and learning! This new and unique program will promote socialization, independent learning opportunities, self-confidence, and problem solving skills through child-initiated and informal activities based on the development and interest of kindergarten-aged children. Lunch may be purchased through your child's school, or packing is also welcome. One way transportation will be provided by the school. This program is designed to meet the needs of families who have children enrolled in either morning or afternoon kindergarten at Hance, Richland, or Wexford Elementary. Call or email us today to learn more about this exciting program and the professional, qualified Child Care Professionals who will be providing this service for our district families!
