

Register your Child for Tutoring!

Has your child been struggling with adjusting to Eden Hall? Do they need some extra help with their school work? Maybe they need an older mentor to help guide them? Then, The Children of Steel is here to help!

The Children of Steel is a student-run organization that spreads across the Pittsburgh area. We are student-run and our members are all high schoolers. We want to help elementary students thrive in school, so we offer FREE tutoring from our high-schoolers here at Pine-Richland. All tutoring is done through Google Meet.

To register your child for tutoring, fill out the following form, found at the link below or the QR code!
