“Our students, staff and parents make this school the place to be.”

Principal David Kristofic on Pine-Richland Middle School being re-designated a “School to Watch” in 2013.
Greetings to the PR Community,

Historically, the district has published an Annual Report as a communication vehicle for celebrating success and to summarize student performance results for selected assessments. The following publication illustrates the accomplishments of both students and staff from the 2011-2012 and the 2012-2013 school years. The results demonstrate the broad focus of the district in the areas of academic achievement, the arts, athletics, and activities. The entire school community has reason to be proud.

Achievement is directly connected to effort. Whether that effort occurs in the classroom, on stage, or in the gymnasium, the most satisfying results are usually connected with incremental improvements over time. These results show the effort on the part of students and staff. Furthermore, it reinforces the vision that Pine-Richland School District is a community where learning is challenging, people are inspiring and students are enriched by their experience.

Congratulations to everyone associated with these awards and the leadership that made them possible at so many levels of the organization.

Respectfully,

Dr. Brian R. Miller
PRSD Superintendent

Teachers Represent PR in PA Teacher of the Year Program

Judges named three Pine-Richland teachers as semifinalists in the Pennsylvania Teacher of the Year program during their annual program in 2013. They include: Wexford Elementary School/Richland Elementary School Music Teacher Kimberly Campbell, Pine-Richland Middle School Eighth Grade Math Teacher Patty Cekella and Pine-Richland High School Social Studies Teacher Matthew Roberts.

Hance Elementary School Teacher Carin Liberati represented the district as a finalist in the 2012 PA Teacher of the Year program.

“Traveling to Hershey was a wonderful experience,” Liberati said. “It was such an honor to be there representing my colleagues at Pine-Richland.”

Fifth grader Rob Palmieri and his brother Ryan, a second grader, who nominated Liberati were on hand to honor her in Hershey, PA, as she was recognized as a finalist.

Rob Palmieri says Liberati is an excellent teacher, because she teaches her students to be confident, to take risks, to possess important skills for the future and to be kind and accepting of all people.

“When you think about it, isn’t that what being a good teacher is all about?” he asked. “Mrs. Carin Liberati deserves to be PA Teacher of the Year. Her kindness, caring and love of her students make her the kind of teacher I’d like to be some day.”

Eden Hall Library Media Specialist Beth Shenefiel, Richland Elementary Third Grade Teacher Kathleen Giegel and Cekella were named semifinalists in 2012.

PRHS Social Studies Teacher Matthew Roberts participated in the Fulbright-Hays Group Projects Abroad 2013 study tour in Japan June 24 – July 23, 2013. During the program, Roberts pursued an independent study project to develop curriculum for his classroom.

The Western PA Writing Project (WPWP) selected Richland Elementary Teacher Kathy Giegel to participate in a Science Technology Engineering & Mathematics project through the WPWP and Carnegie Science Center. The project is a two-year partnership to develop program models to reach a more diverse
range of youth and educators and to increase exposure to STEM-rich learning experiences.

Hance Elementary Teacher Carin Liberati was inducted into the Allegheny Valley School District Alumni Hall of Fame for distinguished public service, academic achievement and professional contributions on April 27, 2013.

**Academic Accomplishments**

The College Board is commending Pine-Richland School District for being one of nearly 540 school districts in the US and Canada for earning a spot on the Advanced Placement Honor Roll across the US and Canada. This is the third year College Board is honoring schools, and the third year in a row that PRSD made the list.

In Pennsylvania, 37 school districts earned a spot on the list. Of those, only 18 have been honored more than one time. In Allegheny County, only Pine-Richland, Upper St. Clair and South Park school districts have been named to the honor roll for multiple years.

The Annual AP District Honor Roll recognizes districts for increasing access to Advanced Placement course work while increasing the percentage of students earning scores of three or higher on AP Exams. Achieving both of these goals is the ideal scenario for a district’s AP program, because it indicates that the district is successfully identifying motivated and academically prepared students who are likely to benefit most from rigorous AP course work.
Initial Keystone Scores Unveiled & Timeline Delayed

The Pennsylvania Department of Education (PDE) is releasing the first results of a new set of assessments called the Keystone Exams, which are designed to evaluate proficiency in content areas of Biology, Algebra I and Language Arts.

Beginning with the class of 2017, students must demonstrate proficiency in these areas to graduate. The district is working to help all students obtain proficiency on these exams.

In December, secondary level students who completed any of those courses in previous school years were tested. The exam results were sent home to parents this past spring.

Students Earn AP Scholar Status

More Pine-Richland High School students than ever are challenging themselves by taking Advanced Placement exams and earning AP Scholar Status. To earn the prestigious title as a National AP Scholar, a student must earn a score of four or higher on eight or more AP exams. Seniors Natalie Blandino, Hannah Christenson, Marcus Colella, Marissa Di, Nicholas Jones and Jared Ohlund earned National AP status.

2012 graduates Lucas Axiotakis, Cameron Barnes, Nigel Halliday, Laura Herrle, Justin Olshavsky and Ji-Ho Park earned this distinction.

2011 graduates Zachary Dionise, Michael Matty, Daniel Nigh and Elizabeth Tomczak earned this national recognition. Other levels of distinction include AP Scholar with Distinction (three or higher on five or more exams), AP Scholar with Honor (three or higher on four or more exams) and AP Scholar status (three or higher on three or more exams).

Student scores fall into a similar assessment range as they do on the Pennsylvania System of School Assessments: Advanced, Proficient, Basic and Below Basic. The boxes below provide a preliminary look at how Pine-Richland School District scored on the first round of Keystone Exams.

While PDE is releasing those numbers, the state released a new timeline for the Pennsylvania Common Core-aligned PSSAs for the following grade levels:

- Grades 3-5 - Embedded field test items to be added in 2013 & 2014
- Grades 6-8 - Embedded field test items to be added in 2014
- Grades 3-8 - Operational English Language Arts & Mathematics assessments to be administered in 2015

The delay allows schools more time to create and implement curriculum that reflects the rigor found in the revised assessments.
Pennsylvania System of School Assessments

Pine-Richland School District continues to strengthen its test scores on the Pennsylvania System of School Assessments (PSSAs), which are being phased out by the Common Core–aligned PSSAs. The district:

- Increased the number of students districtwide who have achieved advanced and proficient status from the previous year.
- Worked to strengthen the high school reading scores for special education.

The Pine-Richland School Board approved the general fund budget for the 2013-2014 school year with total expenditures of $69,541,750 and total revenues of $69,266,250 with a fund balance utilization of $275,500 for capital improvements. In addition, the board established the following tax rates for the fiscal year 2013-2014:

> Real Estate Tax rate of 19.2083 mills (increase of 2.61 percent over 2012-2013)
> Earned Income Tax of 0.5 percent
> Act 511 Per Capita Tax of $5 for individuals age 18 and older
> Pennsylvania School Code Per Capita Tax of $5 for individuals age 18 & older

The district has addressed the financial climate and has looked at several alternative revenue sources and cost-saving measures for the past few years. Some of them have included:

**Alternative Revenue Sources**
- Energy Curtailment Program
- Facility Rental Agreements
- Grants & Donations
- Parking Fees
- Rebates & Commissions
- Scoreboard Advertisements
- Student Activity Fees

**Cost Saving Measures**
- Elimination of Post Employment Medical Benefits
- Reduction in Programs with Elimination of Five & A Half Physical Education Positions & One Music Position
- Refinancing Bond Issues
- Vacant Positions Unfilled within District

**Individual Taxpayer Savings Opportunities**
- The board approved the Homestead and Farmstead Exclusion Resolution for the upcoming tax year. The resolution provides for property tax reduction through a “homestead or farmstead exclusion,” which is provided by the state gaming industry/casinos. Residents should have an application on file with Allegheny County indicating the house they live in is their homestead. They will also receive a reduction in assessed value for their school tax. Each approved homestead will receive a real estate tax reduction amount of $192.08. The reduction in real estate tax assessed value on a resident’s tax notice would be in the amount of $10,000.

> The board approved a property tax rebate program for qualifying senior citizens, widows and widowers for tax year 2012 and 2013. If the filer meets the criteria, he or she could see anywhere from $250-$650 in rebates.

**Budget Balancing Act Impacted by Variables**
As you know, balancing the budget can be extremely difficult. Some of the variables that factor into the budget include:

**Salaries & Wages** - Personnel costs for administration, faculty and support staff represent 63.5 percent of the total annual budgeted expenditures, which are already established by agreements and compensation plans.

**Employer Benefit Costs** - The district’s employer contribution rate for the Public School Employees’ Retirement System (PSERS) will increase to 16.93 percent of the salary cost from 12.36 percent in 2012-2013, which translates to $1,390,120 in the 2013-2014 budget. This rate is set by the PSERS Board of Trustees and mandated by state legislation.

**Premium Costs** - Allegheny County Schools Health Insurance Consortium premium costs will increase by seven percent for PPO plans and five percent for HMO plans, for covered employees. Overall group health insurance expenditures are expected to increase this year by $285,580.

**Tuition Expenditures** - The district is required by law to pay tuition costs, which are projected at $512,000 for 2013-2014, for students who reside in Pine-Richland to attend cyber/charter schools.

**PR Earns Communications Awards**
The Pennsylvania School Public Relations Association awarded Pine-Richland School District with the 2012-2013 PenSPRA Excellence in Communications Award of Honor for the district’s website. The website earned high marks in the writing category for having well-written, interesting and substantive copy pertaining to the school district and its achievements, priorities and educational goals overall. PR’s Moving Full STEAM Ahead

Pine-Richland dedicated the new Science, Technology, Engineering, Arts and Mathematics (STEAM) wing during a special open house program on Sept. 13, 2012. The district teamed up with Sodexo, who provided refreshments and snacks. During the program, the community had a chance to tour classrooms and the updated music, global studies, food court and cafeteria areas. The building is conducive to providing students with hands-on learning opportunities and to provide programs to develop skills connected to career aspirations in STEAM-related fields.

The district formed a STEAM committee in 2012. Community leaders have been working with Assistant Superintendent Dr. David Foley to develop strategies to involve the help of community professionals in STEAM-related careers as well as addressing short and long-term goals in relation to curriculum, instruction and assessment strategies.

All grade levels have been offering STEAM-related programs such as special guest speakers, hands-on learning lessons and science fairs.
Foundation Teams Up with District

The Pine-Richland Opportunities Fund (PROF) has been teaming up with the district on STEAM-related initiatives. Most recently, PROF hosted a fundraiser at the grand opening of the new showroom at Tom Henry Chevrolet in Gibsonia. The program caught the eye of the vice president of General Motors, who judged racing cars designed by Pine-Richland students. The PRHS Art Department and Music Department also participated in the event. PROF is an independent non-profit organization committed to enriching and investing in the educational experiences of the Pine-Richland student community through staff grants, scholarships and partnerships.

School Safety

Student and staff safety is always a priority at Pine-Richland School District. As we work to provide the most secure and safe environment as possible, keep in mind:

> The district security team continues to meet with Northern Regional Police and other security experts in an ongoing effort to address security procedures, best practices & safety drills. The district has a security officer who is working with the district on an ongoing basis to review the district’s safety operation plan.

> The district is asking visitors to make appointments before visiting the school. We understand last minute needs might occur, but scheduling an appointment will help us with our efforts.

> The district and law enforcement personnel request parents/community members to report concerns to building administrators and/or at 724-449-TIPS. This is a joint service of the police department, Consolidated Communications and the school district.

Pine-Richland Middle School Named “School to Watch”

(L-R) Seventh graders Tyler Goncz, Nick Berexa and Jake Betush await for an assembly to start in celebration of PRMS being re-designated as a “School to Watch”. This is the second time the team has re-designated PRMS as an outstanding middle school. The school earned national recognition by being designated a “School to Watch” originally in 2007 and was re-designated in 2010. Schools are selected based on academic excellence, responsiveness to the needs and interests of young adolescents and commitment to helping all students achieve at high levels.

A Word About the 2012 & 2013 Annual Report

Please know that Pine-Richland School District is always looking for ways to reduce spending while being environmentally friendly. As a result, PR produced the annual report on 100% recycled paper. While the district has curbed the use of paper through the years, this is the only document mailed to residents to provide them with a snapshot of the budget and worthy achievements earned by students and staff. We hope you have enjoyed this edition, which encompasses two year’s worth of information.
