Assignment to be returned by Friday at 4pm: Choose your best picture/writing combo from this week’s activities and email it to your teacher. Make sure you have neat writing and your best coloring. We will be sharing your chosen quilt square to share during our next Google Hangout! If you do not have access to a computer to print out the quilt squares, that is okay. You may draw your own square using a ruler and a pencil. Complete the same writing activity and then draw a similar picture. Everyone must return ONE quilt square for a Science Grade this week.

Bonus Activity (not required): Put all of your squares together to create your own finished quilt! There are extra pages that we didn’t use that you could choose to do as well to make your quilt bigger if you would like. Have someone take a picture of you holding your quilt in front of you. SMILE! Email the final quilt pic to your teacher and we will share your pic as well.
