COUNSELOR INFORMATION DAY
NOVEMBER 7, 2019
MISSION

Pennsylvania’s State System of Higher Education was established by statute on July 1, 1983, although the 14 universities that comprise the State System have a much longer history dating back to the 19th century.

The universities combine to enroll the largest number of Pennsylvania residents among all four-year colleges and universities in the Commonwealth. With nearly 100,000 degree-seeking students and thousands more enrolled in certificate and other career-development programs, the State System is a vital contributor to the Pennsylvania economy. Collectively, the State System universities offer more than 2,300 degree and certificate programs in more than 530 academic areas. The universities have nearly 800,000 living alumni, the vast majority of whom reside in Pennsylvania.

The State System is undertaking a System Redesign, which began last year with a top-to-bottom review of the universities and the Office of the Chancellor. As a result of that review, the Board established three priorities:

• ensuring student success;
• leveraging the universities’ strengths; and
• transforming the System’s governance structure.

The Board also affirmed its commitment to ensuring the long-term sustainability of all 14 institutions within the System so that each may continue to serve students, its region and the Commonwealth.

HISTORY

The state universities spent the first 100 years of existence training teachers for Pennsylvania’s schools. The Normal School Act of 1857 established regional teacher training institutions throughout the Commonwealth. The School Code of 1911 called for the state purchase of all normal schools, and, by 1921, the current configuration of 14 state-owned universities was established. The 14 schools evolved from state normal schools, to state teachers colleges, to state colleges. On November 12, 1982, Act 188 was signed into law establishing on July 1, 1983, the Pennsylvania State System of Higher Education.

The 14 STATE UNIVERSITIES

The universities are situated in rural, suburban, and small-town settings throughout Pennsylvania, in the communities of Bloomsburg, California, Cheyney, Clarion, East Stroudsburg, Edinboro, Indiana, Kutztown, Lock Haven, Mansfield, Millersville, Shippensburg, Slippery Rock, and West Chester. The four branch campuses are in Oil City (Clarion), Kittanning and Punxsutawney (Indiana), and Clearfield (Lock Haven). The Office of the Chancellor is situated in the capital city of Harrisburg at the Dixon University Center.

ACADEMIC PROGRAMS

Universities in the Pennsylvania State System of Higher Education provide a wide range of associate, bachelor’s, master’s, and doctoral degree programs, offering teacher, administrator and supervisory certificates, as well as a range of lifelong learning opportunities. More than 250 degree and certificate programs in more than 120 areas of study are offered. Prerequisite coursework and counseling are afforded students planning to enter professional schools for engineering, health-related sciences, and law.

CURRENT STUDENTS and ALUMNI

Pennsylvania’s State System of Higher Education is the largest provider of higher education in the Commonwealth, enrolling more than 100,000 degree-seeking students and thousands more in certificate and other career-development programs. Collectively, the universities that comprise our State System offer more than 2,300 degree and certificate programs in more than 530 academic areas. Nearly 520,000 State System university alumni live in Pennsylvania.

CAMPUS UPDATES:

• The Warrior Promise guarantees incoming undergraduate students pay the same tuition rate, without an increase, for the next four years
• ESU has a test-optional admission process
• New academic major programs in Accounting, Marketing and Finance
• Residence hall renovations and new suite-style housing available
• Bloomberg Finance Lab for students of all majors provides leading business data and technology
• Most sophisticated 3D printing lab and equipment in Pennsylvania state system
• Warrior Launchpad available to student entrepreneurs pursuing innovative passions

LEARNING SERVICES:

ESU offers drop-in tutoring labs, learning assistants, individual tutoring sessions, math question centers, a writing studio and peer mentors for its First-Year Experience program. Living-Learning Communities in certain disciplines allow students to live with others who share similar academic or special interests. The Career Development Center can kick start a students’ career search at any point during their academic career.

LOCATION: Indiana, Pennsylvania is a town with a population of roughly 30,000 and is situated 55 miles northeast of Pittsburgh. The university also has affiliate campuses in Freeport (Northpointe) and Punxsutawney, which is also the home of the IUP Academy of Culinary Arts. It also has a graduate center in Wilkins Township (Pittsburgh East) and offers graduate classes at the Dixon Center in Harrisburg and Pennsylvania Highlands Community College in Johnstown.

ACCEPTED/ENROLLED STUDENTS: Average SAT Score – 1017  Average ACT Score – 20.12  Average GPA – 3.31  

CAMPUS UPDATES:  
• When the fall semester began, students in the two-year old University College were working out of their own location, a newly renovated space in the IUP Libraries. The college was created in 2018 to help students who are still exploring their options find a major that will set them on a rewarding career path while also keeping them on track to graduate in a timely fashion.  
• IUP students continue to enjoy the benefits of a unique program that is the first of its kind in the country: the minor in Leadership and Teamwork. In 2020, they will be able to earn a certificate in Living Learning (in either Global Scholarship or Scientific Communication), which can be paired with a bachelor’s degree. That program is also a one-of-a-kind offering.  
• Another student-focused project is the construction of the new building that will be the state-of-the-art home of the John J. and Char Kopchick College of Natural Sciences and Mathematics. It’s expected to open in 2023.  
• In another tale of global impact made locally, students in Dr. Ben Ford’s summer Archaeology Field School discovered human artifacts from 8,000 years ago nearby in Blairsville, at a site that had previously was thought to be inhabited only in the late 1700 and early 1800s.

Exploratory Natural Sciences and Mathematics

Due to the ever-changing nature of the university, majors offered may be modified throughout the course of the academic year. Provisions will be made for students currently enrolled, and the Admissions Office will contact affected prospective students with necessary updates.

* Students interested in the BFA in Art Studio program must undergo a review in order to be admitted to this program. They cannot apply for admission into the program at this time.

** Students interested in Culinary Arts or Baking and Pastry Arts must submit the Culinary Academy application. Please call 1-800-438-6424 or visit www.iup.edu/culinary for more information.

*** Students interested in NURS-LPN or RESP-CRT must have the designated certification as part of their admission requirements; some credits may be awarded toward the program.

**** Students admitted into the Early Childhood or Special Education program must complete a fifth-year, graduate-level program, for which they can apply for early admission, before they will earn certification.

A total of $6.2 million budgeted for scholarships and need-based aid and 80% of students receive some sort of aid. Over $1.3 million in Foundation scholarships awarded.

LOCATION: Kutztown is located conveniently between Reading and Allentown, less than a 30-minute drive to both cities. It is one hour to Philadelphia and Harrisburg, two to New York City, and three to Baltimore and Washington, D.C. KU is located 20 minutes from the northeast extension of the Pennsylvania Turnpike (Exit 33) and five minutes from Interstate 78. From I-78, take Exit 40 to 737 South and turn right onto Main Street; proceed up the hill to campus.

TOP 5 MOST POPULAR MAJORS: Criminal Justice, Psychology, Business, Education, Biology

TOP 5 MOST UNIQUE MAJORS: Communication Design; Social Media Theory and Strategy; Cinema, Television, and Media Production; Public Relations; Astronomy

CAMPUS UPDATES: In addition to new academic programs introduced in Fall 2018 (Personal Financial Planning, Public Relations), KU has received a variety of new rankings including being recognized as the leading Communication Design program in Pennsylvania. For fall 2019, we introduced a new major in Supply Chain Management; installed a Scanning Electron Microscope, observatory dome, and a new turf sports complex. We now offer a new Certificate in Data Analytics, a concentration in Visual Impairment and a minor in Game Development.

LEARNING SERVICES: Kutztown is devoted to the success of our students. Highlights include: STARS 5-week summer program, PROFS program for foster youth, Living/Learning Communities, Champions Program for Freshman Retention, ACT 101 and TRIO programs. We also have an Office of Disability Services, a Career Development Center and the Center for Academic Success and Achievement.

CAMPUS UPDATES: Continued installation of one of the largest geothermal cooling and heating systems in the country. Once completed, this state-of-the-art system will provide natural temperature control for each of the academic, student support services, and residence hall buildings on campus. Commons Hall will be opening in 2020.

LEARNING SERVICES: Academic coaching, special summer orientation, specialized tutoring in English and math, advocacy with faculty, alternative test-taking arrangements, priority registration, note-taking support, study skills tutoring, alternate formatting assistance, adaptive technology, readers for visually impaired students, interpreters for deaf students, referrals for LD testing, peer support, Dub-C Autism Program.

PROGRAMS OF STUDY:

MOST POPULAR: Exercise Science, Biology, Music, Education, Pre-Business programs, Psychology, Nursing, Criminal Justice

SELECTIVE: Computer Science, Music, Education, Nursing, Nutrition and Dietetics, Physics-Engineering, Biomedical Engineering, Pharmaceutical Product Development, Biology, BS Health Science: Sports Medicine Studies Concentration

UNIQUE: 3+2 Accelerated Program: B.S. Health Science: Sports Medicine Studies Concentration and M.S. Athletic Training, Pharmaceutical Product Development
ALL MAJORS:

Accounting (Pre-Business)
