Start with the activities checklist to identify what you might like to do in the future and ones that you are interested in or can do now. At the end of the first page, click **Continue** to move on through each page and complete the assessment. The assessment can take 15-20 minutes. Results can be used to view and favorite career clusters.

People like you are quiet, gentle, and caring. When people first meet you you may seem reserved and cool. But once you get to know and care about someone, you are warm and very loyal. You tend to be cautious about jumping into social activities and may resist trying new experiences. Instead, you like spending time with one or two close, trusted friends or spending time alone, enjoying the things that really interest you. You are considerate, respectful, and sensitive, and usually find tension or conflict between people very uncomfortable. Since you have strong beliefs about right and wrong and try to always treat other people kindly, you may be easily hurt or offended by the insensitivity or callousness of others.
