## PENNSYLVANIA'S STATE SYSTEM *of* HIGHER EDUCATION

Pennsylvania's State System of Higher Education (PASSHE) was established on July 1, 1983. However, the universities that comprise the State System have a much longer history. The mission of the System is as relevant today as it was at its founding: to provide high-quality education at the lowest possible cost to students; to increase educational attainment in the Commonwealth of Pennsylvania; to prepare students at the undergraduate and graduate levels for professional and personal success in their lives; and to contribute to the economic, social, and cultural development of Pennsylvania's communities, the commonwealth, and the nation.

The universities combine to enroll the largest number of Pennsylvania residents among all four-year colleges and universities in the commonwealth. With 90,000 degree-seeking students and thousands more enrolled in certificate and other career-development programs, the State System is vital to Pennsylvania's economy. State System universities collectively offer more than 2,300 degree and certificate programs in more than 530 academic areas. The universities have nearly 800,000 living alumni, most of whom reside in Pennsylvania.

The State System is currently redesigning itself to ensure the long-term sustainability of all universities so that each may continue to serve students, its region, and the commonwealth for decades to come.

### OUR UNIVERSITIES

Established as "normal schools" more than a century ago, devoted to the training of teachers, the State System and its universities have evolved to meet changing needs and serve our commonwealth in a much broader way than initially designed. Still, through its transformational journey, helping students achieve their educational goals and dreams has been at the core of each university's purpose and mission.

Known as the most affordable higher education option in Pennsylvania, the State System and its universities are committed to increasing opportunities and cultivating diverse, equitable, and inclusive environments that enable all members of the State System community to thrive. Each historic campus provides students with unique, high-quality educational experiences, regardless of zip code or family background, and the opportunity to achieve success and upward mobility.

### STUDENT SUCCESS

Student success is the single most important objective of the State System. It entails ensuring that students don't just enroll in a State System university, but that they complete an affordable, high-quality degree or certificate program. State System students are career ready when they graduate, in areas most in demand in the workforce. Graduates go on to become leaders in their communities, as well as contributing, responsible citizens.

**Campus Updates:**

- We lowered tuition for in-state students by almost 20 percent, beginning in fall 2022.
- The Crimson Scholars Circle program, now in its second year, is designed to better support Black and Brown students through scholarship, learning, and mentorship.
- Our National Achievement Scholarships Office is unique in the state system. Students can get the guidance and information they need to apply and get selected for prestigious scholarships such as Fulbright, Goldwater, and others.
- Coming soon, John J. and Char Kopchick Hall will elevate the university's work in the STEM fields and give students opportunities to make discoveries every day in a state-of-the-art facility.

### **Campus Updates:**

On September 15, 2022, WCU held a ceremonial ribbon cutting for its newest building, the Sciences & Engineering Center and The Commons. This is WCU's largest academic and service building and is designed to provide a dynamic living-learning environment for the next generation of engineers, nurses, nutritionists, physicists, public health professionals, and scientists. The Commons wing includes a dining facility and flexible conference spaces for students to connect, eat, and work.
